## ABBREVIATIONS

- Bio Abbreviation for Bio-dynamic. Eliminates the use of chemicals and focuses on using all the elements of surrounding nature to produce wine as one entity.
- MI Abbreviation of minimal intervention. Refers to the practice of using natural processes in vinification, including by using endemic yeasts in the winery, and using no additives, except in some cases minimal sulphur dioxide as a preservative.
- Org No artificial chemical fertilizers, pesticides, fungicides and herbicides. (No Chemicals)
- Sust Abbreviation of Sustainable. Refers to the practice of ecologically sustainable viticulture, including minimal or no use of chemicals in the vineyard.
