ABBREVIATIONS

- Bio Biodynamic. Refers to viticulture in accordance with holistic natural agricultural practices without using any chemicals in the vineyard and winery ecosystem.
- MI Minimal intervention. Refers to the practice of using natural processes in vinification, including by using endemic yeasts in the winery, and using no additives, except in some cases minimal sulphur dioxide as a preservative.
- Org Organic. Refers to organic viticulture without using any chemical fertilizers, pesticides, fungicides or herbicides.
- Sust Sustainable. Refers to the practice of ecologically sustainable viticulture, including minimal or no use of chemicals in the vineyard.
